Many people object to the use of spectacles when they really need them, because it makes them look old. How much more is this the case when one is compelled to use different glasses for distance and near vision or the old style cemented lenses? The new Kryptok is one solid piece of glass. Ask to see them.

PROMPT REPORTS.—The Parker Board of Trade, Douglas Chamber of Commerce and Mines and Maricopa County Commercial club, have reported to the Phoenix Board of Trade that they have forwarded messages as requested to the senate committee on territories. The papers in other Arizona cities indicate that the request has been generally complied with.

A YUMA SUIT.—The case of T. D. Molloy and Fred L. Ingraham against Ida J. Mustain and husband, brought here on a change of venue from Yuma county, was tried before Judge Kent yesterday and the plaintiffs were given judgment for \$150. The plaintiffs are attorneys and the suit was for the recovery of \$600 due for legal services.

A WATER COMPARISON.—The water in storage in the Roosevelt reservoir yesterday was 494,804. That condition is what makes the farmers in this valley feel so good and their property assured. Even with the small reserve of last year the supply was so handled that there was no great shortage of water, and this year there has been ample the season through, with the big pond still to draw from.

WOMEN'S HOME MISSION.—The Women's Home Missionary society of the First Methodist church will have an open meeting at the church Thursday evening at eight o'clock. Good speakers have been secured and good music is promised, both by some old favorites and some new to the Phoenix public. NEW YORK AMERICAN OFFERS PUBLICITY.—New York city is to have an "American Land and Irrigation Exposition" November 3 to November 13, inclusive, in Madison Square Garden, which the New York American is exploiting as widely as possible. That paper proposes to get out a special edition on October 29, designed to boost the big show, just before its opening. It has written to the board of trade asking for a specially prepared article on the Salt river valley for use in that issue. The secretary had replied that he will be glad to furnish it.

PETTID'S PART IN IT.—M. J. Pettid was one of the complainants in the injunction suit brought against Bishop Granjon and others to restrain the Catholic church from the further use of a certain holding on the Tempe road for the purposes of a cemetery. He also went on the bond of Mrs. Swetnam, another of the complainants. A patron of painters, it was through him that Velasquez at 24 became court painter to the young king at 18. In return Velasquez painted a number of portraits of his protector. The canvas, measuring 51 by 35 inches, came from Captain Robert S. Halford of London, in whose possession it had long been held after having passed through the Baillie Sale in 1858, when it was sold for £538 10s and the Scarborough Sale in 1861, when it sold for £262 10s, very moderate sums compared to the surprising figure said to have been paid for it recently. At the time it was painted Velasquez was receiving \$11 a month for his services as court painter.—Harper's.

In summer the feet ache, perspire, feel damp and uncomfortable. Cool shoes and thin stockings help some, but not enough.

If you want real foot comfort, use Dike's Foot Powder

Just a little Dike's Foot Powder in the shoes, sprinkle some on the stockings. It absorbs moisture and checks perspiration to a large extent. Then the feet are comfortable, do not swell, do not ache.

It's fine when breaking in new shoes, winter or summer. Makes them slip on easily, overcomes friction at the pinching places, prevents formation of corns and blisters.
